Dear Active Investor,

It is with great pleasure that we present to you our futures trading services. WH SelfInvest, through hard work and respect for the client, has built an enviable reputation for service and professionalism. We sincerely hope that you, like many others, will decide to become a WHS client.

WH SELFINVEST Ltd is a financial institution under Luxembourg law with EUR 653 m in share capital. WH SelfInvest fully complies with all legal requirements of the laws of the G.D. of Luxembourg regarding financial intermediaries. We have both a broker authorisation (42798) and a commissionnaire authorization (36399) from the 'Commission for the Surveillance of the Financial Services Sector'. Shareholdership is divided between the company founders and an institutional investors: Creafund. The company is audited not by one, but two, independent audit firms. Thus the quality of our services is guaranteed.

WH SelfInvest serves both active private clients and medium-sized financial institutions (fund and portfolio managers). We currently serve clients from 28 different nationalities. WH SelfInvest has offices in Luxembourg and Amsterdam ■

WH SelfInvest offers **direct access** to all electronically traded futures contracts (500+) on the **U.S.** and **European** markets:

| Market | Country | Most traded futures contracts |
|-----------------|---------|---------------------------------------|
| Euronext -Matif | F | CAC40, ... |
| Eurex | D | DAX, Eurostoxx50, Bund, ... |
| Liffe | UK | FTSE 100, ... |
| CBOT | USA | e-mini: Dow Jones, Bonds, gold, ... |
| CME | USA | e-mini: Nasdaq, S&P500, eurodollar... |

Our multi-lingual **support desk** can be reached from 08.00 to 22.00 hrs CET. Our support staff is highly qualified and always polite. You can ask questions about futures, shares, options, technical analysis, swing trading, day trading and a host of similar topics. They are always ready to serve you. The service level of our support desk is **legendary**.

Operational **e-mails** will invariably be answered within record time.

People who would like a helping hand in getting familiar with their futures trading platform are more than welcome at our offices for a **private tutorial**. One of our staff will show you how to use the platform. This person will spend as much time as needed with you. It is a good opportunity to ask all your questions.

WH SelfInvest frequently organizes introduction and training **courses** on futures and futures trading (incl. training in the use of the real-time futures trading signals). Clients have free or low rate access to these events.

Each client receives a free copy of the **WHS Futures Starter Guide**. This guide contains useful information on all aspects of futures trading.

Finally, all clients have free access to the extremely popular WHS **real-time trading signals!** The best tool to master the skills of the real trader. More details on page 3 of this brochure ■

The WHS Futures trading platform is fast, reliable and cutting edge

The opinion of our clients :

" I'm very satisfied with WH Selfinvest. E-mails get answered quickly, the trading software is excellent ... "

" Excellent customer service and a user-friendly, fast trading platform which offers numerous possibilities ... "

" Fantastic broker. I am very satisfied with the fast and extensive service provided. "

" I am very happy with the initiatives your team takes to supply your traders with valuable tips and information. The updates are very good. "

Technical Analysis

WHS Futures is extremely fast. Quotes are 100% free of charge. Apart from a tick-chart, WHS Futures has no technical analysis or graphs. Traders who want to use a TA package which offers good value for money may subscribe through WHS to the well-known e-Signal TA package at a reduced rate.

WHS Futures is an exceptional trading platform. It is built on the same order routing technology as the one used by the major futures exchanges. WHS Futures is fast, stable and reliable. Across an extremely fast network traders have *direct access* to the futures markets.

The platform's foundations are built by *Patsystems*. It is sometimes known as *j-trader*. Pats, together with TT, are the *only* trading platforms used by professional traders for day trading on futures! Why? Reliability and speed. But particularly because these are the only two futures trading platforms which update **tick-by-tick**. All other platforms update slower with half second snap shot quotes. This is a big difference. If your platform does not update tick-by-tick you cannot trade on each tick. Therefore you will lose ticks. One tick in your favour, e.g. on the eurostoxx50 future, is € 10 in your favour. You might save money by taking a cheaper platform but you will lose all these savings, and more, on the execution.

Contrary to most Patsystems licencees, WHS offers all available Pats features. These features are essential to any successful futures trader: one-click orderbook, one-click trading, D.O.M.E. screen, ...

Real time quotes and **detailed order books**. Traders receive free real-time quotes of all electronically traded futures contracts in Europe and the US. The WHS Futures platform shows the most advanced type of order book available. Only one click on the order book is needed to 'hit the bid' or 'lift the offer'.

Order ticket and **order types**. Placing an order is easy. Traders can either use the complete order ticket or use any of the nine one-click-and-trade order entry possibilities the platform offers.

There are 16 different order types including stop loss and stop limit. Orders can be valid for 1 day, GTD (good-til-date) or GTC (good-til-cancel).

D.O.M.E. The Depth of Market Executor gives a clear and simple overview of live trading on a particular futures contract. It shows the depth of the market and allows traders to see their own order in the order book. With a single click orders, including stop orders, can be either placed or cancelled.

A D.O.M.E. screen is what professional futures traders use.

Order Status allows traders to quickly check the status of each order. Open orders can be modified or cancelled. All the steps of the order execution process are detailed and time stamped.

| Order ID | St | Ex | Con | Contr | Buy/Sell | Lots | Price | Fill | Num/Price |
|----------|----|-------|------|-------|----------|------|--------|------|-----------|
| 38116 | C | EUREX | Bund | Mar02 | Buy | 50 | 104.95 | 0 | 0 0.000 |
| 38115 | C | EUREX | Bund | Mar02 | Buy | 5 | 104.90 | 0 | 0 0.000 |
| 38114 | C | EUREX | Bund | Mar02 | Buy | 5 | 104.94 | 0 | 0 0.000 |
| 38113 | C | EUREX | Bund | Mar02 | Buy | 5 | 104.95 | 0 | 0 0.000 |
| 38112 | F | EUREX | Bund | Mar02 | Sell | 5 | 105.01 | 5 | 1 105.010 |
| 38111 | F | EUREX | Bund | Mar02 | Sell | 3 | 104.99 | 3 | 1 104.990 |
| 38110 | F | EUREX | Bund | Mar02 | Buy | 3 | 104.95 | 3 | 1 104.940 |

The **Positions** screen shows the profit or loss on each position as well as across all positions in real-time. An intraday profit/loss including the closed out trades is also shown.

| Contract | Net Pos | Average | Last | Open P/L | Cum P/L |
|--------------------|---------|---------|--------|--------------|-------------|
| EUREX Bund 1 Mar02 | +5 | 104.950 | 104.99 | 50.00 | 0.00 |
| TOTAL | | | | 31.45 | 0.00 |

What are the WHS real-time futures trading signals ?

All clients have free access to the extremely popular WHS **real-time futures trading signals**. Everybody is capable of learning how to trade up to a good average level. The WHS trading signals are designed to help novice traders to reach this level. Advanced traders will find the trading signals a good basis for the creation of advanced trading strategies.

The trading signals website contains educational texts, diagrams, a training programme (do you have the discipline to stick with it?), exercises, a difficult self-test as well as the real-time trading signals and their charts ■

Account information

The minimum deposit to open a WHS Futures account is € 10,000. Your WHS Futures account is covered by Luxembourg banking secrecy. WH SelfInvest has designated Man Financial, a daughter of the Man Group plc, to be the clearer and depository of our clients' futures accounts. Man Financial is the largest derivatives depository in the world.

Funding your account can either be done by a money transfer to the Banque de Luxembourg or by a cash deposit at the Banque de Luxembourg. The money will automatically be routed to your account with Man. Accounts are held in EUR (other currency on demand). Clients can trade futures denominated in all currencies from the same account. Easy and practical ■

Commissions schedule

| Large volumes |
|---|
| You trade systematically more than 500 lots/month and can show this with trade records? Ask for a special offer based on your volume. |
| Strong together |
| Not enough volume for Rate A ? Open an account together with a friend (each his own account). Both of you will always benefit from Rate A. |

| | Commission WHS | Patsystems fee* |
|--|---|---|
| Rate A You traded > 100 lots per month | € 2,20 or \$ 2,20 for futures in USD | € 0,50 or \$ 0,50 for futures in USD |
| Rate B You traded < 100 lots per month | € 4,40 or \$ 4,40 for futures in USD | € 0,50 or \$ 0,50 for futures in USD |
| Administration, account holding , insurance | | € 39 per quarter |

* The Patsystems fee is transferred to Patsystems, the manufacturer of the trading platform. Professional futures trade use only one of two futures trading platforms, Patsystems or TT. Why? They are the only futures trading platforms which update **TICK-BY-TICK**. Other trading platforms only update with half second snap quotes. As a consequence you cannot trade on each individual tick. This is an important difference. One tick in your advantage on, say the Eurostoxx50 future, is no less than EUR 10 in your advantage. Professional traders know that paying the small Patsystems fee results in better execution prices i.e. in more profits. Sometimes paying a bit more is cheaper.

Info : buy 3 contracts, sell 3 contracts. This counts as having traded 6 lots.

Info : commission and fee are per lot per side exclusive of the exchange fees dictated by the exchanges. Commissions are net. There is no additional VAT. There are no additional stock exchange taxes.

Info : cancelling orders is FREE. Modifying orders is FREE.

Some of the main advantages

Low commissions. No minima. Guaranteed volume discounts

Direct access to 500+ futures. Competitive **margin** requirements. Half margin for day trades

Only futures platform to update **tick-by-tick**. Fast and stable incl. orderbooks & 1-click trading

All **order types** available. Including stop and stop limit orders

Broker with a **European passport**. Largest derivatives depository in the **world**

Legendary **service** in 4 languages until 22.00 hrs. **Free** real-time trading signals

I am convinced ! How do I open an account ?
